

## **Speaking/Writing/Thinking Retreat Special Study and "Grounding" Experience in North Wales, U.K.**

**Diplomatt Abroad** is offering a potent foundational course this summer. The course has been designed both to root non-native students in living English as well as to equip them to move efficiently toward their goals and dreams in a global environment.

The course will combine 30 hours of classroom learning (six days) with a homestay experience and trips to least five special sites in the UK rich with British culture and history. The classes will be conducted at the Trinity School in the safe and picturesque town of Bangor in North Wales. The course is based on two key ideas:

**(1) Language is a powerful tool. Those who get ahead are those who utilize it effectively.**

Hence, the lessons will be geared toward effective speaking, writing, and creative thinking. Students will produce various projects, give talks, receive feedback, and learn to generate strategies and promote their ideas.

**(2) Like any language, English is more than just a collection of words and syntax. It is a reflection of culture and history.**

The lessons, therefore, are punctuated by excursions and activities aimed at providing (to the greatest extent possible in a very short time) a background in the British lifestyle and heritage.

=イギリス、ノース（北）ウェールズ 英語サマーショート留学プログラム=

イギリスでは最も安全と言われているノース（北）ウェールズ地方で
